

CODE OF OPERATIONAL RESPONSIBILITY

Academy for Emergency Guardian Instruction & Safeguarding

Version 1.0 | Effective immediately | Replaces all prior versions

1. PURPOSE

This Code establishes the ethical and operational standards governing all AEGIS personnel during the execution of their duties. Every operative, regardless of rank, division, or ability classification, is bound by these principles from the date of their commissioning through the duration of their service.

2. CORE PRINCIPLES

- **Proportional Response:** Use of abilities and force shall be proportional to the threat. Escalation beyond the minimum necessary to resolve a situation is a violation of this Code.
- **Civilian Primacy:** The safety and dignity of civilians is the first priority in all operations. Mission objectives do not override the obligation to minimize civilian harm.
- **Transparency:** All operatives shall maintain body-mounted recording equipment during civilian-facing operations. Deactivation of recording equipment without authorization is a Category 2 violation.
- **Accountability:** Every operative is personally responsible for their decisions in the field. Following orders does not exempt an operative from ethical accountability.

3. VIOLATION CATEGORIES

Category 1 (Minor): Procedural deviation with no injury or property damage. Examples: late post-mission reports, operating outside patrol zone without authorization. Handled by division review.

Category 2 (Serious): Deviation resulting in injury, property damage, or civilian complaint. Examples: unauthorized ability use in public, recording equipment deactivation. Triggers formal investigation.

Category 3 (Critical): Action resulting in loss of life, significant structural damage, or international incident. Triggers automatic Ethics Board review and potential suspension.

4. REPORTING OBLIGATIONS

All incidents must be reported within 48 hours of occurrence using Standard Form IR-1. Category 2 and 3 incidents require immediate verbal notification to the duty commander in addition to the written report. Failure to report is itself a Category 1 violation.

5. ACKNOWLEDGMENT

All personnel must acknowledge receipt and understanding of this Code annually. This acknowledgment is recorded as part of the Safety Compliance Protocols training (SC-100). Questions

regarding interpretation of this Code should be directed to the Ethics Board at ethics@aegis-hq.internal.
